WHO READS IT

- IT administrators who run Microsoft 365, Exchange Online, Intune and Teams
- Identity and cloud engineers working with Entra ID and Azure
- Developers and people automating work with AI tools, APIs and no-code platforms
- Small-business owners and their IT partners choosing and setting up software

The United States is our largest audience by far, followed by India, Singapore, Japan, the United Kingdom and Australia.

OUR RULES

- We only accept products that are relevant and useful to our readers.
- We test what we write about. If the product does not work as described, we say so or we do not publish.
- Sponsored content is always labelled, and its links are marked rel="sponsored".
- Sponsors do not approve or edit our conclusions; the opinion is ours.
- Not accepted: gambling, adult content, crypto investment schemes, payday loans, malware or hacking tools, MLM, or anything illegal.
- No link-only deals, no “dofollow” link sales and no paid editorial listings without a label.
